Lebanese Maritime Administration authorizes Dromon

Dromon BS is expanding towards meeting the needs of a dynamic market.

The Lebanese Maritime Transport has authorized Dromon BS for statutory certification services for ships and offshore units registered under Lebanese flag.

The agreement has been signed between the Directorate General of Land and Maritime Transport and Dromon Managing Director on January 27, 2014 at the Administration's premises.

The Agreement covers statutory survey and certification services for ships and offshore units, registered with Lebanese flag, equipment and materials for ships and offshore units, including containers for compliance with International Conventions, Codes and National Requirements.

This authorization will contribute to the expansion of this Bureau and to cover of its clients' needs for inspection and certification of their ships.
